Johannes	5	3	
Rikard	10	13	
Mohammed	10	14	
Sebastian	10	13	
Total	65	83	✓ 18

Planned Work

- Finish the *Project Plan*.
- Validate all the requirements.
- Create database structure.
- Detail diagrams.

Planned Working Hours

Member	W46	W47	W48	W49	W50	W51	W52	W1	W2	W3	Total
Bastien	10	16	20	16	15	12	5	8	8	5	115
Zacharias	10	16	20	16	15	12	5	8	8	5	115
Sebastian	10	16	20	16	15	12	5	8	8	5	115
Cécile	10	16	20	16	15	12	5	8	8	5	115
Mohammed	10	16	20	16	15	12	5	8	8	5	115
Rikard	10	16	20	16	15	12	5	8	8	5	115
Johannes	5	16	20	16	15	12	6	10	10	5	115

Identified Risks

- Poor communication between team members can be a problem -> We use Teams to communicate. For now, things are looking good.
- Misunderstanding of the requirements can be problematic -> We will contact the client to validate our work.
- The work done so far on the requirements is simply writing them -> The team will meet to review this requirements and agreed on them.
- Bad evolution of the work time -> Work hours based on past projects of the same size.

Questions
